

ISTS 2017

The International Seminar on Technology for Sustainability

20-27 August 2017 in Turku, Finland

ABOUT

Turku University of Applied Sciences, in cooperation with a student cooperative Pointti and the Japanese NIT organization, has a pleasure to invite you to the 7th International Seminar on Technology for Sustainability (ISTS). Paying respect to JSTS/ISTS traditions, the event proposes high level, Finnish based engineering and market problem cases to student teams.

JSTS (Japan Seminar on Technology for Sustainability) is an event organized by the Japanese students organizing committee and is held in Kumamoto, Japan in May 2017. The problem solving competencies gained in JSTS can be further improved in ISTS.

WHERE & WHEN

The ISTS 2017 event takes place in the Lemminkäisenkatu campus and ICT-City campus of Turku University of Applied Sciences on 20-27 August 2017. The campuses are located approximately 3 km from the city center of Turku.

REGISTRATION & PAYMENT

Information on registration, payment, location and general rules can be found on the ISTS 2017 webpage.
